

A PROJECT ON:

HIFIX SYSTEM

IN PYTHON D'JANGO

SUBMITTED BY:

5098. Jha Ronak kumar Rajeev kumar

5043. Prajapati Jaydev Mahendra kumar

BCA STUDENTS

Navgujarat College of Computer Applications

Navgujarat Campus, Ashram Road Ahmedabad
www.navgujaratbca.com (M): 6358598306

Certificate of Completion

This is to certify that Software Development Project "**HIFIX SYSTEM**" Is submitted to Gujarat University by:

Group No.	Student's Name	Roll No.
14.	Jha Ronak Kumar Rajeev Kumar Prajapati Jaydev Mahendra Kumar	5098 5043

They have successfully completed the project for the duration of six months (Sem-VI) towards the partial fulfillment for the award of "Bachelors in Computer Applications [B.C.A.] in the year 2023-24.

This is the original work carried out under our guidance and supervision. We further certify that the details are best to our knowledge and believe that the matter presented in this project is bonafide. We appreciate their enthusiasm and dedication towards the work submitted.

Best wishes for their future endeavors.

(Internal Guide)

(Hon. Director)

(External Examiner)

Acknowledgement

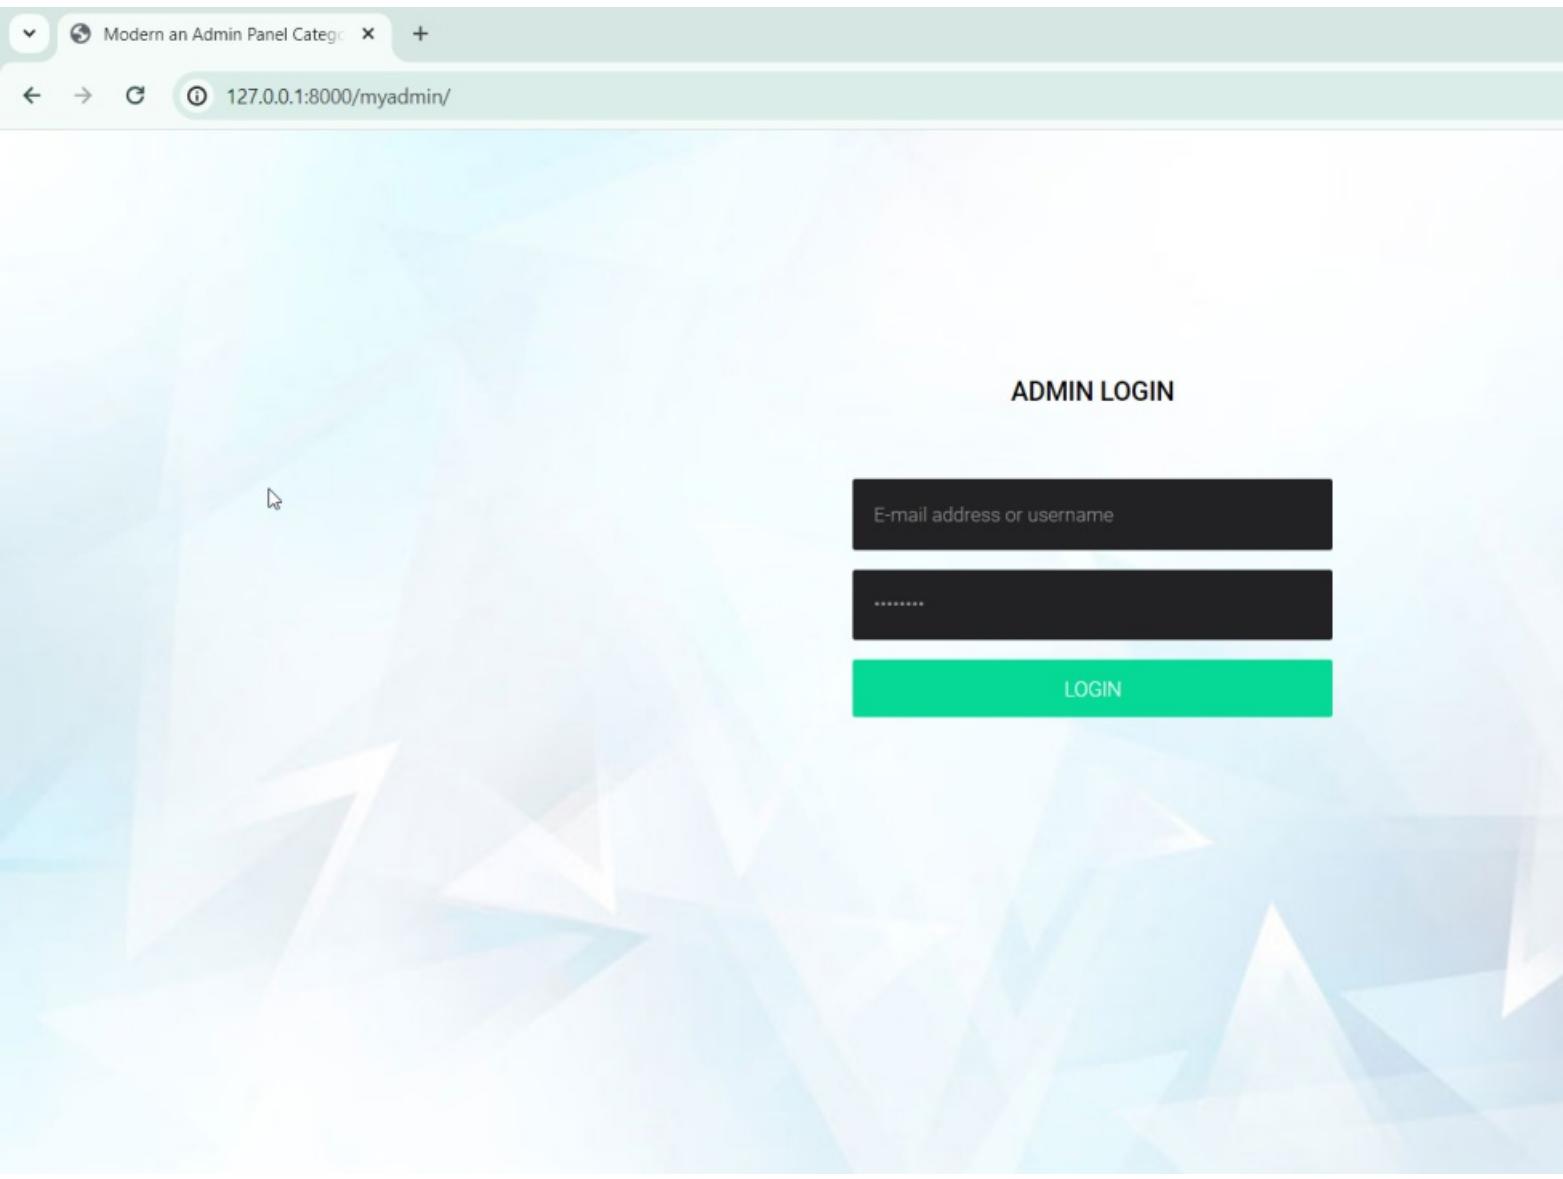

We are very thankful to Navgujarat College of Computer Application to give us the golden opportunity to work in this project and also to provide us deep and valuable knowledge. We grab this opportunity to introduce the project of 'website project' part of our B.C.A Semester 6. Firstly, we are indebtedly grateful to our internal guide to our internal guide **Prof. Parul Patel** for her support to not just complete the project but also to learn and develop skills while working on project. We are also thankful to our external guide **Mr. Alkesh Kaba** for their valuable guidance and support without their support this project would not have been completed. We thankful to all staff and faculty of our college for co-operation and guidance. Finally, we would like to extend our heartfelt thanks to our parents for their blessings without their help this project would not have been successful. Lastly, we would like to sincerely acknowledge and express our gratitude to all those who have directly and indirectly instrumental in preparing this report.

About Us

Introduction

Hifix System is a technology platform offering a wide range of services. Customers use our platform to book services such as cleaning, painting, lawn mowing, etc. These services are delivered in the time and manner of their choosing. We promise our customers a reliable service experience. To fulfill this promise, we have carefully picked service partners, enabling them with tools, financing, insurance and brand, helping them succeed.

How we can help

Hifix System provides a platform that allows skilled professionals to connect with users looking for specific services. Our matching algorithm identifies professionals who meet the user's requirements and available at the requested time.

Conclusion:-

Hifix system is a web-application which removes the intermediate between a user and a worker. It is a system by which a user can upload the post of his requirement .Requirement can be related to any categories like Electrician, Plumber, Cleaner, Driver, Painter, Carpenter etc. as per the area and city .The worker from the same area can view and apply to the post. After Applying Worker, User can select any of them as per his convenience, reviews and budget.
